5. About the Card and E-wallet

5.1. Description

The Card and the E-wallet are issued by us – Movavate Limited. Please see our company's details in Section 2 (Who we are and how to contact us).

Card

The Card is a payment card that can be used for online and in-store purchases worldwide at merchants who accept Mastercard/Visa payment cards as a form of payment for goods and services. The Card is not a credit card or a charge card. Transactions made using the Card will be debited from the balance of funds held in the E-wallet.

E-wallet

The E-wallet is an e-money account. You may load the E-wallet with e-money using different payment methods (see Section 5.3).

No interest is payable to you on the balance of funds held in the E-wallet; nor does the balance of funds held in the E-wallet constitute a deposit.

The E-wallet may be used to transact. In order to use the E-wallet to transact, you must first load funds onto the E-wallet (please see Section 5.3).

Once loaded with funds, you may send funds from the E-wallet to another payment account.

Each time you transact using the E-wallet or the Card, the balance of funds held in the E-wallet will be debited by the amount of the transaction plus any applicable fees.

In addition to EUR, you may load your E-wallet with funds in different Supported Currencies. We do not support all foreign currencies. Please see the list on the Website for those currencies that we do support.

Please note that the funds held in your E-wallet are **NOT protected by the Financial Services Compensation Scheme**; however, we follow the requirements of the Electronic Money Regulations 2011 which are designed to ensure the safety of funds held on accounts such as this.

5.2. What happens in cases where there are insufficient funds in my E-wallet?

If you attempt to send money from the E-wallet or pay for a purchase using the Card and you have an insufficient balance of funds held in your E-wallet to make that payment, the payment will be declined.

You must have a sufficient balance of funds held in your E-wallet to make a payment. The balance of funds held in your E-wallet must not be negative.

If you attempt to make a payment using the E-wallet or Card in a particular currency and you do not hold a sufficient balance of that currency in the E-wallet or the payment otherwise anticipates a currency that we do not support, the payment will be automatically processed using a balance of another currency that you do hold in your E-wallet and a currency conversion rate will be applied (please see section 9.3 for currency conversion rates).

If you do not hold a balance in another currency upon which to draw funds to cover a payment, your payment will be declined.

5.3. Loading funds into your E-wallet with Top-Up

5.3.1. **Top-Up:** You can load funds into your E-wallet by linking a Funding Source to your E-wallet. You can link a Funding Source to your E-wallet by entering the Funding Source's credentials in the secure personal area of the Website.

5.3.2. You will find instruction along with any applicable limits for adding a Funding Source in the secure personal area of the portal. In order to Top-Up your E-wallet using your Funding Source, you must follow the applicable steps in the secure personal area of the Website.

5.3.3. When we receive a payment from your Funding Source, we may hold the funds for so long as we determine that there is no risk that the issuer of the Funding Source (i.e. your card-issuing or account-issuing bank) may reverse the transfer due to there being insufficient funds in your bank account.

5.3.4. In order to ensure you receive good outcomes from your use of our Services, we may limit the Funding Sources available for a transaction. If we limit a Funding Source, we will alert you that there is a higher-than-normal level of risk associated with the payment (for example, a risk that the payment may be challenged for some reason). If we contact you for this reason, we are not asserting that you or the merchant who you seek to pay is acting in a dishonest or fraudulent manner. It

means that we consider there may be a higher-than-normal risk associated with the payment and we are investigating to ensure you receive a good outcome, as far as possible.

6. Use of the E-wallet and the Card

6.1. How to authorise a payment

You will need to authorise a transaction before we can charge it to your E-wallet.

6.1.1. Authorising payments made using your E-wallet : To authorise a payment to another payment account from your E-wallet, you will need to enter the IBAN or account number and sort code of the person you wish to pay (the payee). You must then follow the relevant steps displayed on the screen in the secure personal log in area of the Website at the time of transacting in order to authorise the payment.

6.1.2. Authorising payments made using your Card: To authorise a payment made using the Card, you will need to use the Card or the Card number. You may need to take additional steps to authorise a transaction at the time you are paying, for example, you may need to enter details on a merchant's online payment page, tap your Card at the point of sale in-store or enter your PIN on the keypad. Depending on the circumstances, you may be required to undergo some further security checks at the time such as providing biometric data (e.g. a fingerprint).

If the Card, card number and PIN, biometric data or other security details have been used, we will assume you have authorised the transaction. You must therefore tell us immediately if you do not recognise a transaction that has been charged to your Card and is listed as a transaction in your secure personal log in area of the Website.

6.1.3. You cannot cancel a transaction after it has been authorised. You can, however, cancel payments that you have authorised to be made on a future date, for example, if you have set up a recurring payment. You can cancel the payment permitting you contact us info@ameropay.net by the end of the business day before the day the payment is due to be made.

6.2. Situations where we may refuse to authorise a transaction

There are certain situations in which we may refuse to authorise a transaction and/or where we may suspend your use of your Card and/or the E-wallet. These situations include the following which we will advise you about at the time:

- if legal or regulatory requirements prevent us from making the payment or mean that we need to carry out further checks;
- if you have infringed this Agreement in a way that we reasonably believe justifies our refusing or delaying your payment;

- if we believe that processing your transaction would break this Agreement or that you have not provided all the information we need to make the payment properly;
- if the amount is over, or would take you over, any limit that applies to your E-wallet and/or Card;
- if there are not enough funds loaded into your E-wallet to make the payment and cover any fees;
- if a bankruptcy order is made against you or you have entered into an individual voluntary arrangement with your creditors;
- if, even after doing everything reasonably possible, we will not be able to make the payment on time;
- if a third party prevents us from making the payment (for example, a card scheme);
- if you owe us money;
- if we have asked you for important information we reasonably need and you have not given us that information; or
- if we have suspended your account.

6.3. Time we will receive the payment order

If your payment order is received by Orenda or us after 4pm on a business day or not on a business day, your payment order will be deemed received on the following business day.

6.4. Execution times

6.4.1. Within the EEA, we will execute any transaction:

- a. in euro; or
- b. involving only one currency conversion between the euro, provided that:

i. the required currency conversion is carried out in the EEA; and

ii. in the case of cross-border transactions, the cross-border transfer takes place in euro,

by transferring the amount of the transaction to the payment service provider of the payee by the end of the next business day following the receipt of the payment order.

6.4.2. Any other transactions within the UK will be executed no later than four business days following the receipt of the payment order.

6.4.3. If the payment service provider of the merchant is located outside the EEA, we will execute the transaction as soon as possible.

6.5. Limits placed on the E-wallet

There may be limits on the amount of funds you can load into the E-wallet. We may also place limits on using the E-wallet and/or the Card for payments above a certain amount, from time to time. For further information relating to the limits placed on the E-wallet and/or the Card, you can view the Website.

6.6. Accounting for service charges or tips when using the Card

When using your Card at certain merchants (such as, for example, hotels or car rentals), an additional amount (typically 10%-20%) may be added to anticipated service charges or tips, temporarily reducing the balance of funds held on the E-wallet. This is to ensure there are sufficient funds available to cover the final cost of the transaction and to reduce the risk of a negative balance arising on the E-wallet. If your actual service charge or tip is less than the additional amount added, it may take up to seven (7) days from the date of the transaction before the difference is available to spend. Only the actual amount of the final bill agreed between you and the merchant will be deducted from the funds held on the E-wallet.

6.7. Shortfall

In the unlikely event, a transaction is completed when there are insufficient funds in the E-wallet for that transaction (a "**Shortfall**"), the Shortfall shall be reimbursed by you unless it is due to an error on the part of the Merchant where the Card was presented, in this circumstance we may seek the Shortfall from the Merchant.

You agree that once we make this Shortfall known to you, we may charge you for the Shortfall amount and deduct the amount from the balance of funds loaded into the E-wallet or from your linked Funding Source. We may also charge the amount of the Shortfall from any other Cards that you hold with us, or any other payment method which you may designate at that time, or against any funds which you may subsequently load into the E-wallet. Until we are reimbursed the Shortfall amount, we may suspend the E-wallet and the Card. In addition, we reserve the right to charge you an administration fee for each transaction that you make using the E-wallet and/or Card that results in a Shortfall or increases the Shortfall amount on the E-wallet.

7. The Card will expire

You may only use your Card up until the expiry date which is printed on the front of the physical Card. We will aim to send you a new Card prior to your Card expiring; we may ask you to confirm some details prior to our sending you a new Card.

Fees may apply in certain cases where we send you a new Card. Please see the fees set out on the Website.

8. Withdrawing funds held in your E-wallet

8.1. How to withdraw the funds held in your E-wallet

You may withdraw funds held in your E-wallet by first logging into the secure personal log in area of the Website and following the relevant prompts on the screen at the time of transacting. You may only withdraw the balance of the funds held in the E-wallet at any point in time minus the amount of any pending transactions.

8.2. Fees will apply to withdrawing funds

You may be charged a fee for withdrawing funds. Please see the fees page on the Website.

8.3. Withdrawing all funds will not mean that your E-wallet is closed

Withdrawing all of your funds from your E-wallet does not automatically close the E-wallet, the Card or otherwise end this Agreement. If you would like to end this Agreement, you must follow the steps in section 16 (closing your E-wallet and ending this Agreement).

9. How much will you pay

9.2. Interest: The funds loaded on to your Card will not earn any interest.

9.3. Exchange rates: You may hold balances of funds in different currencies in your E-wallet. If you are making a payment or withdrawing funds in a currency you hold in the E-wallet, the payment will be made from that balance. If you make a payment or withdraw funds in a currency you do not hold in your E-wallet, we will convert the amount applying the relevant rate and a fee to the balance or currency that you do hold.

For transactions made using the Card, we will use the relevant exchange rate published by Mastercard or Visa (available here <https://www.visa.co.uk/support/consumer/travel-support/exchange-rate-calculator.html>).

For making payments from the E-wallet, we will use the relevant exchange rate provided by our third-party provider (available here <https://www.visa.co.uk/support/consumer/travel-support/exchange-rate-calculator.html>)).

We will also apply our margin which is available on the fees pages of the Website. Any change in the relevant exchange rate will be applied immediately and without notice to you. We may also change our exchange rate provider at our discretion, without notice to you.
